- ✓ Monitoring & control instruments, medical devices
- ✓ Smoke detectors—non-ionising
- ✓ Portable batteries
- ✓ Fridges, freezers and large white goods.

**Providing you with a complete  
WEEE recycling service**

#### EEE & WEEE

The WEEE Regulations were introduced to the UK in 2007.

Their purpose is to make sure Electronic and Electrical Equipment, EEE, is recycled. Keeping this harmful waste stream from landfill.

For Waste EEE, we get WEEE.

Recolight has been recycling WEEE lighting since 2007.

Our collection partners asked if we could do more. Using our network and expertise of managing lamps, we have extended our service to include more items covered by the WEEE Regulations.
