

Join the WEEE scheme setting the standard for the lighting industry

Recolight offer you and your customers **FREE recycling** for lighting in scope of the WEEE Regulations.

Recolight's straightforward approach to charging contrasts to the complexities of traditional WEEE schemes. Our approach is to **apply a flat fee based on actual in-year sales**.

You have no hidden costs and no need to consider the consequences of market share changes and compliance fee; making budgeting simple.

You can be assured you will get the best advice from Recolight; the specialist, non-profit, scheme for all lighting and other WEEE.

We fully understand the way WEEE affects lighting and lobby to minimise the impact of this your business. Your customers can feel confident in your membership of the UK's leading lighting compliance scheme; the scheme that has recycled more WEEE lighting than all other UK compliance schemes combined.

Total compliance

Recolight now offer full compliance for **packaging and batteries**.

With a team of WEEE experts to guide you, we are your compliance department.

★ **FREE lamp & luminaire recycling** ★

Recolight collect and recycle waste lamps, luminaires, batteries, and other WEEE.

Giving you:

- A completely integrated waste electrical recycling service.
- A full audit trail for your waste.

BUSINESS LUMINAIRES

For major UK refit and street lighting projects, we will provide skips for luminaires and containers for lamps.

LAMPS

Recolight offer FREE collections for waste fluorescent and LED lamps. This service is for those collecting regular large volumes. A low cost leased container is available for smaller quantities.

Simple, flat fee charging with no hidden costs.

Your customers have access to **FREE recycling services** for all WEEE lighting.

You can rely on us to **lobby on your behalf** to make sure the WEEE Regulations are right for lighting.

You can **have confidence** that your WEEE compliance is properly and professionally handled.

Recolight ★ Facts ★

Operating as a **non-profit organisation** to minimize your costs and maximise funds for recycling.

Recycled more lighting than all other UK WEEE schemes combined.

New lighting products in scope of the WEEE Regulations

New lighting products were included in the WEEE Regulations from January 2019

This means that

Manufacturers

Importers

Re-branders

must be reporting to a WEEE Producer Compliance Scheme (PCS)

You need to:

- Put the crossed out wheelee bin symbol on the product or packaging.
- Record and report the total net weight of products sold each quarter to your PCS.

Charging designed to help you budget

Recolight offers a straightforward approach to charging in contrast to the complexities of traditional WEEE schemes. The Recolight approach is to **apply a flat fee per kilo of household luminaires** based on actual in-year sales.

Recolight charging for all other WEEE lighting is per unit.

Recolight
WEEE? GOT IT.

Recolight is a WEEE Producer Compliance Scheme, set up by, and working for the lighting industry.

We were established in 2005 with an operating model based on one developed by the forerunner of Lighting Europe, the European trade association for lighting manufacturers.

In addition to statutory financial and Environment Agency audits, Recolight is also audited by Ernst and Young for a wide range of operational, commercial, and performance criteria. That gives our Members the best possible confidence that Recolight is operating at the highest level of integrity and efficiency.

The WEEE Regulations require producers of EEE and their compliance schemes to finance the treatment of WEEE. A large proportion of the UK lighting industry meet their producer obligations by being a Member of Recolight.

Products now in scope
